K AIR BEACH SERIES

The new K BEACH AIR series is the perfect balance of stiffness, stability, and lightweight technology. The floor of the kayak features HP Drop Stitch technology, the stiffest technology available on the market, ensuring maximum comfort and glide. LP side chambers are made with a PVC Tarpaulin of reinforced 1000 denier, for stability, compactness, and fast inflation. They can resist to scratches and small shocks.

Inspired by the full hp, the deck is profiled with deep v molded tip sections, front and rear, reducing the rowing effect and providing better directional control. A fin also equips the K BEACH for precise steering.

Coming with a complete ready-to-go package, with plenty of space inside, you will be ready for an outing beyond the shorelines with your teammates. Available in single, tandem and three-person sizes.
